

SDS100

True I/Q

Uniden creates another first with the SDS100 True I/Q Scanner, the first scanner to incorporate Software Defined Radio technology to provide incredible digital performance in even the most challenging RF environments. The SDS100's digital performance is better than any other scanner in both simulcast and weak-signal environments.

The SDS100 is also the first scanner that allows you to decide what to display, where, and in what color. Custom fields put the information important to you right where you need it.

And, one more first, the SDS100 meets JIS4 (IPX4) standards for water resistance.

FEATURES:

- Customizable Color Display
- Trunktracker X
- APCO P25 Phase I and II
- Motorola, EDACS, and LTR Trunking
- MotoTRBO Capacity + and Connect +*
- DMR Tier III*
- Hytera XPT*
- Single-Channel DMR*
- NXDN 4800 and 9600*
- EDACS ProVoice*
- Location-Based Scanning
- USA/Canada Radio Database
- ZIP Code Selection for Easy Setup
- Close Call™ RF Capture with Do Not Disturb
- 8 GB microSD
- Soft Keys for Intelligent UI
- Recording, Playback, and Replay
- Temporary Avoid
- Fire Tone-Out Alert
- System Analysis and Discovery
- CTCSS/DCS/NAC/RAN/Color Code Decoding
- S.A.M.E. Weather Alert
- Enhanced Dynamic Memory
- Preemptive Trunking Priority
- Multi-Site System Scanning
- Fully Customizable Scanning with your own Favorites Lists
- Backlit Keypad
- Channel Volume Offset
- PC Programming and Control
- USB Connectivity and Charging
- Weekly Database Updates
- Free Sentinel Software keeps the SDS100 database and memory up to date
- Up to 8 Hours Operation on included Lilon Battery
- Frequency Coverage:
 - 25-512 MHz
 - 758-824 MHz
 - 849-869 MHz
 - 894-960 MHz
 - 1240-1300 MHz

* Paid Upgrade required. Upgrade might not be available upon initial release.
