ABOUT TEXAS RADIO SHORTWAVE

Texas Radio Shortwave is an independent producer of music and topical programs, formerly relayed via free radio stations (pirates), now broadcast by commercial shortwave stations in Europe and North America.

Texas Radio Shortwave's Prime programs feature songs by Texas artists, or about Texas, or music performed at Texas venues. TRSW Special and Encore programs feature a variety of music genres and artists, including non-Texans and topical themes.

Texas Radio Shortwave verifies every correct reception report with an electronic QSL. There's usually a new QSL design for each program. TRSW has a Reception Report Guide to help listeners submit useful reception reports and receive a verification. A copy of the guide can be requested at the email address below.

Texas Radio Shortwave invites listeners to submit music requests, either by artist name or song title. Only songs by Texas artists or songs about Texas about Texas will be added to a TRSW Prime program playlist. Other songs may be added to a TRSW Special program playlist.

Texas Radio Shortwave is headquartered on a ship in the Gulf of Mexico, lurking stealthily off Port Isabel in far South Texas.
